

Concealed Type Electronic Flushing Valve

Operation:	Auto(Infrared)+Manual
Control Box Inlet Connection	1-1/4"BSP
Control Box Outlet Connection	1-1/4"BSP
Operating Water Pressure	0.5 - 6 bar
Dual Operation	Electrical + Battery
Power Consumption	0.5mw
Sensing Distance	550-650mm & Adjustable
Respond Time	3 Second
Flow Rate	3 & 6 Litre per use & Deodorize feature of 24 hours voluntarily flush if no use.
Intelligent Flush	
Manual Push	Yes, Optional Feature Yes, Automatic activates half or full flushes according to use time.
Dual Flush	(After 90 second usage full flush will be activate automatically)
Pre Flush	Yes, clean WC before use in front of the user.
Water Temperature	0.1-80 deg celcius

Recommended for Public & Offices

Features

Design Innovation

Maximum Water Saving

Soft Water Flow
